

1. Hybrid & Remote Work Policy 1.1. Eligibility: Employees who have successfully completed their 90-day initial probation period are eligible to participate in the hybrid work program. 1.2. Schedule: Eligible full-time staff may work remotely for up to 2 designated days per calendar week. Remote work days must be aligned with team operational requirements and approved by the department head. 1.3. Equipment: The enterprise provides a standardized laptop, peripheral monitor, and secure VPN token for all remote employees. All company data stored locally on personal devices is strictly prohibited.
2. Annual Paid Time Off (PTO) & Leave 2.1. Annual Entitlement: Full-time employees accrue paid annual leave at a rate of 1.66 days per month, yielding a total of 20 paid leave days per calendar year. 2.2. Leave Carry-Forward: Employees may carry forward a maximum of 5 unused leave days into the subsequent financial year. Any excess accrued days beyond this limit will automatically expire on March 31. 2.3. Sick Leave: A total of 10 paid sick leave days are allocated annually. Medical certificates are required for consecutive absences exceeding 2 business days.
3. Health Insurance & Medical Coverage 3.1. General Coverage: Standard corporate health insurance provides primary coverage up to \$50,000 per policy year for hospitalization, surgical procedures, and critical illness treatments. 3.2. Outpatient Care: The outpatient care reimbursement limit is capped at \$2,500 annually per employee, covering consultation fees, diagnostic lab tests, and prescribed pharmaceutical medications. 3.3. Dependent Benefits: Spouses and dependent children up to age 21 are covered under the enterprise group policy with a 10% co-pay requirement.
4. Information Security & Compliance 4.1. Password Protocol: Passwords must be a minimum of 14 characters long, including uppercase letters, numbers, and special symbols, and must be updated every 90 days. 4.2. Data Confidentiality: Sharing proprietary business analytics, source code, or customer financial records via unauthorized email or third-party cloud applications constitutes a severe security violation.
